

### Course overview

This unit of competency provides the skills and knowledge required to enable you to:

- Understand the principles and classes of fire
- Select and use the correct fire extinguishers, blankets and hose reels on different classes of fire
- Recognise common causes of workplace fires and prevention methods
- Recognise the key actions in a fire emergency, commonly known by the acronym RACE
- Risk assess workplace fires for risks presented
- Learn key safety points for workplace fires

### Course outcomes and work opportunities

This course has been developed to cater for corporate group bookings for those that are responsible for using various first attack firefighting equipment in emergency situations in the work place. It does not cover the competencies required to become a professional or volunteer firefighter.

### Course Information

**Delivery:** Course is delivered by a fully qualified industry professional using a blended learning method of theory and practical demonstrations and assessments.

**Duration:** 5 Hours (1 Day)

**Min participants:** 4

**Max participants:** 8

**Location:** Site or at the PWR Training Facility (Bassendean WA)

**Pre-requisites** – No individual public enrolments are taken for this course

**Refresher Training:** The training industry recommends that workers retake this course every two (2) years to ensure they maintain their competency.
