

PWR

COVID-19 SERVICES

AS WESTERN AUSTRALIA'S PREMIER CRITICAL SERVICES SUPPLIER TO THE MINING RESOURCES INDUSTRY, PWR ARE NOW PROVIDING A RANGE OF SPECIFIC SERVICES AND EQUIPMENT FOR COVID-19 RISK MITIGATION.

PERTH AIRPORT QUARANTINE/ISOLATION TRANSFER SERVICE

PWR is now operating a quarantine/isolation bus transfer service for FIFO employees from all Perth terminals to any designated metropolitan isolation hotel, facility or the employee's home. This service is undertaken by qualified PWR medical personnel in a fully equipped and decontaminated vehicle.

The service is ideal for mining resource sector employers that wish to demobilise employees that may be displaying potential COVID-19 symptoms, but who do not require emergency medical care, while maintaining an appropriate level of duty of care.

Contact Jim Mullen for further information, to schedule transfers or to notify the service for permanent standby.
